Bad Faith in the Courts: What Will "Work" in 2019

presented by Dale Swope

Proving the bad faith case can be a tricky endeavor. It is important to be aware of the current legal trends happening in Florida. During this hour, you will learn not only the law, but techniques to preserving and winning your bad faith claim.

Probate for the Personal Injury Attorney

presented by Matt Hinson

Dealing with the death of a client may be an unfortunate inevitability and being prepared is important. This presentation focuses on the probate and guardianship needs of the personal injury practitioner. You will learn the basics of probate from what it is to the procedural steps in the process, including how to proceed when a minor is involved.

Lien Resolution: The What, Why, & How

presented by David H. Abney

Resolving medical liens has become a varied and complex area of personal injury law. ERISA, Medicare Secondary Payer Act, Medicaid, local hospital ordinances, and recent changes to Florida law regarding passing lien resolution costs along to the Plaintiff are amongst the topics that will be discussed.

Easiest Catch: Don't Be Another Fish in the Dark 'Net

presented by Mark Lanterman

In this digital age vast amounts of data is being gathered and stored, including confidential client information on the dark web. Here you will learn what is out there, where it is being stored, and how to best utilize it in court.
